

RAVI KISHNANI

Chief Operating Officer | Multi-Function Operations, Supply Chain and Commerce

Vadodara, India | +91-8160126864 | ravikishnani@gmail.com | linkedin.com/in/ravikishnani/

PROFESSIONAL SUMMARY

Chief Operating Officer who owns everything between point of sale and point of delivery. **Twelve functions report through operations:** HR, IT, supply chain, international procurement and purchasing, logistics and 3PL, warehousing and fulfilment, e-commerce, digital marketing, customer service, legal and compliance, data and MIS, and administration.

Sixteen years building operating systems in six unrelated sectors: manufacturing, distribution, omnichannel commerce, jewellery retail, pharmaceuticals and events. An operator who has built that discipline in industries with nothing in common can build it in yours.

I build for the decade ahead as well as the quarter: capacity, headcount and systems sized against where the business is going, so the operation scales instead of being rebuilt every time it doubles.

CORE COMPETENCIES

Operations Strategy and P&L Ownership | Supply Chain, Procurement and Logistics | Manufacturing Operations and Greenfield Commissioning | Inventory Planning and Demand Forecasting | ERP and Business Systems Implementation | Process Design, SOP and KPI Governance | Organisational Design and Workforce Productivity | HR Governance and Statutory Compliance | Omnichannel and E-Commerce Operations | Cost Optimisation and Contract Negotiation

SYSTEMS AND CONTROLS BUILT

- **Direct build control, NF Hing:** plant layout, civil work, utilities and every machine on the floor run through contractors and suppliers selected, rate-negotiated and managed personally, with commissioning driven through to first output - rather than handed to a turnkey builder.
- **Inventory classification and reorder system:** three-tier fast, average and slow-moving bands driving purchase quantity, with reorder points set against supplier lead time. Ended stockouts on fast movers and cleared dead stock.
- **New-product gate:** import a sample, put it in front of B2B clients through the sales agents, and buy on their feedback rather than instinct - with pre-orders secured before landing and **over half a container sold before it arrived**.
- **Returns control:** a customer video-on-opening policy that made 3PL damage claims contractually enforceable, taking **returns from 10% to 3%**.
- **Onboarding and training system:** standardised modules and materials built in-house that cut new-joiner ramp-up from **three to four weeks down to five days** - so headcount could scale fast without the operation slipping.
- **Remote operations stack:** communications migrated to DingTalk, GPS across the truck fleet, CCTV over warehouse and office used to verify van loading against paperwork, and biometric and face-recognition access - giving the owner **full visibility and control of the operation without being physically present**.
- **Cost recovery:** warehouse leases renegotiated directly with landlords at each renewal, and packaging and scrap streams resold rather than written off.

PROFESSIONAL EXPERIENCE

NF Hing Pvt. Ltd. (National Foods Group), Vadodara, India | Apr 2026 - Aug 2026

Chief Operating Officer - Greenfield asafoetida manufacturing venture, reporting to the owners

- Took an empty plant to **commercial production in 30 days, deploying a 10 Cr capital budget** across **five production lines**.
- Ran the **complete power licensing and build for a 2,000 KVA plant** end to end through MGVL.
- Ramped output to **5 tonnes per day** against a 10 t/day design capacity while remaining equipment was still in commissioning.
- Built a **200-person operation** - a 30-person core team plus a **170-strong contract workforce staffed in one week** through agencies selected and rate-negotiated directly.

Independent Consultant, Vadodara, India | Jan 2024 - Mar 2026

- Advised SMEs on **business systems, e-commerce strategy and workflow automation**, applying operating experience from nine years of multi-brand leadership.
- Delivered **four residential and one commercial project** end to end - contractors, materials procurement, budgets and timelines - **all five completed on time and on budget**.

Sunbeams Impex Inc. and Sunbeams Lifestyle, Manila, Philippines | Apr 2014 - Mar 2023

General Manager (Jan 2017 - Mar 2023) - Operations Manager (2016) - Office Manager (2015) - Warehouse Manager (Apr - Dec 2014)

Reporting directly to the owner, with ten department heads across twelve functions spanning two sister companies in B2B distribution and omnichannel commerce.

- Grew the group from **50M to 400M revenue** and 15 to **90-plus employees** across 10 departments, 10-plus brands and 1,000-plus SKUs, at **25% average YoY over nine years**.
- Built the e-commerce business **from zero to 200M** across 12 marketplaces, 50% of company revenue, and lifted **gross margin from 30% to 50%** by moving the group out of distributor margin into direct retail.
- Cut **logistics cost from over 4% to under 1% of revenue** on the company fleet, uncovering and closing fuel and overtime fraud.
- Ran **international sourcing and procurement across China, Thailand and India**, buying at factory level at the **Canton Fair, Guangzhou (2019)**, and **cut the company's customs clearance cost by 20%**.
- Planned and controlled an **operating budget of close to 30M a year** across every function reporting to me.
- Cut **payroll from 7% to under 5% of revenue** through a manager-led structure with a trained intern pipeline behind it.
- Scaled warehousing **500 to 2,500 sqm** across two facilities and set the fulfilment standard the warehouse runs to: **12-hour order-to-dispatch**.
- Deployed **ERP, WMS, HRMS, CRM and API marketplace synchronisation** across both companies.
- Peaked at **50x social ROAS** and held **20x marketplace ROAS**, **doubling average basket size** through bundling, cross-sell and lifecycle marketing.
- Rebuilt HR and legal documentation from the ground up and **never lost a labour case in nine years**, resolving every case that arose at arbitration.
- Grew through COVID rather than surviving it - already fully online while competitors were offline, **increasing manpower 50%** and revenue **roughly 30% YoY**.

EARLIER EXPERIENCE

- **Kisna Diamond Jewellery**, Mumbai - Cluster Manager | 2013
- **Raw Enterprises**, Pune - Production Supervisor | 2012
